

Activity

Can you follow the river and help the otter find its way home?

# OTTERS

## Designed for Swimming

### Life in the Water

Otters live near water and especially like river banks where there are lots of bushes and trees.

What helps an otter to swim in the water? (Tick the pawprints).

Long, thin shape and long, strong tail .

Webbing between the toes (like a duck).

Feathers.

Ears and nose are able to close when the animal is under water.

Long whiskers.

Water-proof fur.

## Quiz

### Otter Poem

Otter  
Tracks on the river bank  
Tail, strong and long  
Eels for supper  
Ripples on the water

Can you complete the following sentence?

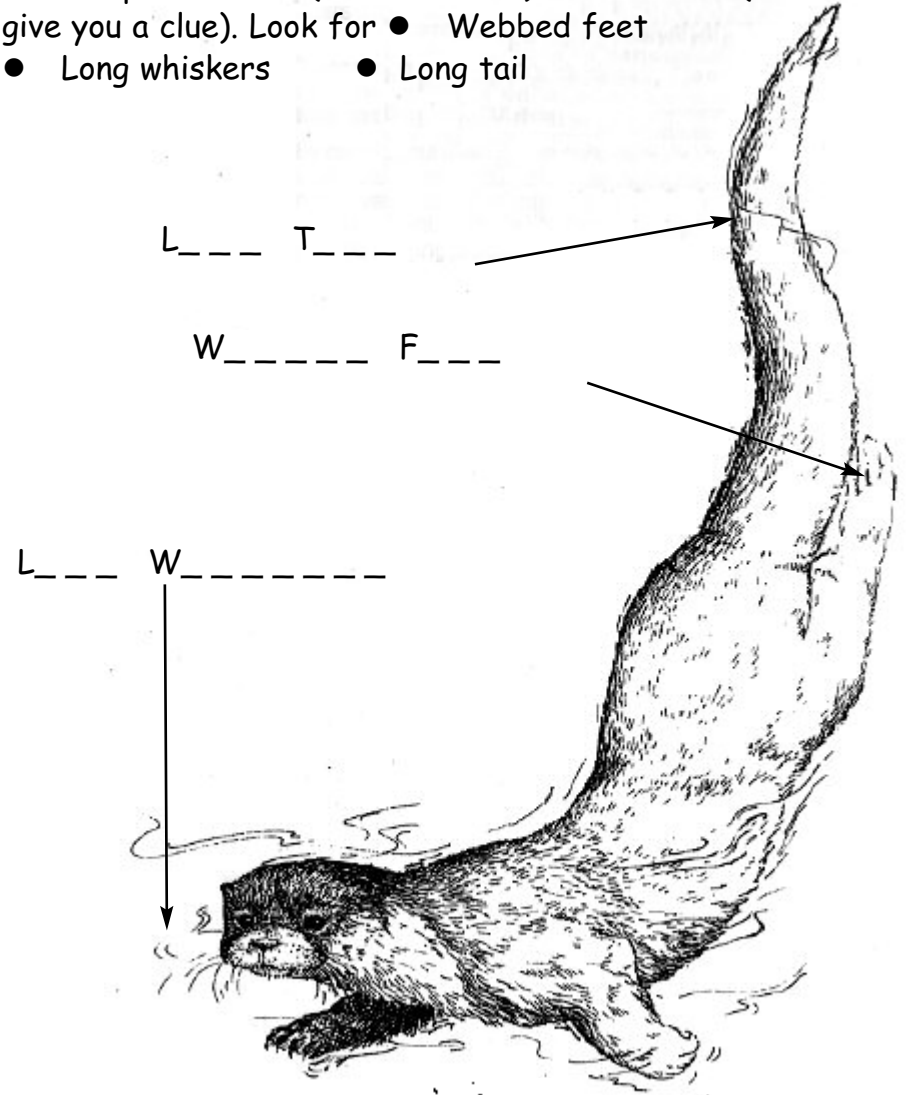

Otters are \_\_\_\_\_

### Colour me in

Can you colour the otter in and find and name three things that help it to swim (and find food) in the water (the arrows give you a clue). Look for

- Webbed feet
- Long whiskers
- Long tail

# Lunchtime!

Can you help the otter decide what to eat for lunch?

Draw arrows to two things that the otter would eat for lunch.

Nuts

Fish

Chips

Grass

Frogs

# Otter Signs

Otters are very shy and hard to find. Become an otter detective and look for the signs that otters leave behind.

An otter might live under this tree - we call this an otter holt. Baby otters might be born in here. We call them kits.

An otter footprint - these might be left on a muddy bank.

An otter dropping or poo! This might be left on top of a rock and is full of fish bones. We call this an otter spraint.
